

GNHC OB DEPARTMENT RECEIVES ACCREDITATION
by Janie Garay

We are very pleased to announce that that the Good Neighbor Health Care Center OB Department has been accredited as a *Centering Pregnancy* site by the **Centering Pregnancy Institute**. This is especially great news considering that the accreditation process is very difficult, and many sites do not pass on their first attempt. We are also grateful for the very helpful suggestions made by the Institute following their June 23rd site visit. These suggestions have been integrated into the process of continuing to improve our program.
